- ▶ Develop History
- ▶ Company strength and advantages

SHANGHAI LWT INTELLIGENT TECHNOLOGY CO., LTD

Shanghai LWT Intelligent Technology Co., Ltd. is located in Jinshan District, Shanghai, the existing planning plant of more than 20,000 square meters, is one of the leading enterprises in China's canning equipment industry, since its inception, has been in the canning industry for many years, business throughout more than 90 countries and regions around the world, focusing on automated canning, pre-make food, filling, packaging, intelligent production line equipment research and development, production, sales and service, is committed to promoting social and industry development and progress, to achieve a more efficient, more intelligent, more sustainable future.

Devolp History >>>

2009

Company
Establish

with Shandong Kangfa, Yuquan, Zhejiang Science and Technology, Dalian Lin Jia Shop, Dacheng and other enterprises to start a friendly journey of cooperation.

2012

Win-win
cooperation

With Shanghai Meilin, HUALEJIA, Hubie Food, Dashanhe, Jiakang, Yashi and other companies carried out collaborative projects

2016

Win-win
cooperation

Signed cooperation projects with Dalian Zhenxin, Shandong Huihuang, Jiajiawang, Lameizi, Jiajiahong, Taizi Milk, Create Food, and Haidilao.

Won the "2016 China Canned Food of the Year" Excellent equipment supplier" certificate, "SGS" certificate.

2018

Accolades

Cooperation with Dalian Gaishi. Awarded Shanghai Municipality Certificate of "High-tech Enterprise".

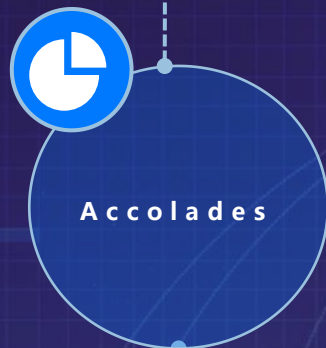

Devolp History >>>

2020

Cooperation with Mi Xue Bing Cheng "BIG PRAND OF FRESH JUICE IN CHINA"

2021

Won the "Shanghai Science and Technology Small and Medium-sized Enterprise"

Certificate of "Top 50 Enterprises in China's Light Industry Equipment Manufacturing Industry"

Planning and construction of new plant in Jinshan District

2022

Won the "2020 China Canning Industry"

Top 10 enterprises (complete set)" certificate

Cooperation with Zhejiang Gengshengtang

Chengdu office was established

2023

Won the "Industry Leader Merchant" and "Global Best Seller" certificates

Cooperated with Yantaitai and Jinluo

2024

Cooperate with Yanjing Beer, Dalian Future, etc.

MANAGEMENT SYSTEM CERTIFICATION

This is to certify that

The **QUALITY MANAGEMENT SYSTEM** of

Shanghai LWT Intelligent Technology Co., Ltd

Organization Code: 91310116MA1JD4H57U

Registered Address: North of the first floor of Building 3, No. 238 Huida Road, Zhangyan Town, Jinshan District, Shanghai

Business Address: No. 358 Huida Road, Zhangyan Town, Jinshan District, Shanghai

has been assessed by SYIC Certification and found to comply with

GB/T19001-2016 / ISO9001:2015

for the scope of activities

Design and production of packaging machinery, research and development of non-standard industrial automation production lines

Certificate No: R306Q15683

First Registration Date: Mar 04, 2024

Date of Issue: Mar 04, 2024

Certificate expiry date: Mar 03, 2027

ISSUED:

The certificated organization must be regularly monitored and audited according to the provisions of the certification service contract, and this certificate will continue to be valid after passing the audit.
Login www.shen1.net or scan the QR code to check the certificate is valid or not. The certificate information is also available on the CNCA official website: <http://www.cnca.gov.cn>.

03 Project Cases

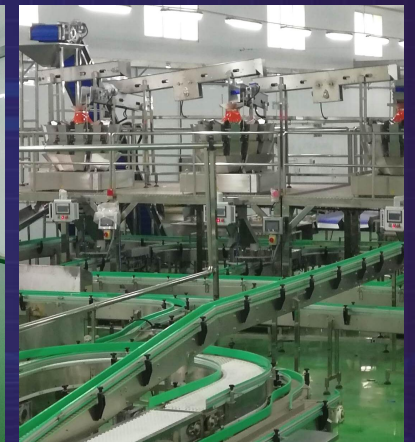

Jia Jia Hong yellow peaches Canning production line >>>

The production line includes:

Yellow peach raw material cleaning - grading
digging - alkali peeling - selection line - empty
bottle depalletizing - automatic bottle washing -
automatic filling - sterilization cooling -
automatic palletizing - automatic packing, the
whole line is completed by the layout planning of
Leadworld.

From the initial synchronous planning and design of the factory, the production layout is more scientific and economical, LWT can plan the appropriate production line for each enterprise free of charge, and hopes to become the preferred partner of all enterprises in the construction and transformation of the factory.

COFCO Group braised pork canning production line >>>

The project is a reasonable planning of a 20,000-ton canned food production base (including a small product production workshop, a braised pork production workshop, and a packaging line production workshop) for Chongqing Agricultural Products Group Food Technology Company (for COFCO Group).

In the empty can depalletizing, empty tank cleaning, conveying, automatic lane separation, product filling, tank sealing, solid tank cleaning, automatic loading and unloading sterilization basket, sterilization basket transportation, sterilization, sterilization basket, air drying and water removal, solid can palletizing and post-packaging equipment to achieve highly automated production, product traceability monitoring, maximize the solution of labor consumption, labor intensity, reduce the difficulty of personnel management, greatly improve the production capacity of enterprises.

Shanghai Meilin, Chongqing, Henan Shangqiu, Anhui Bengbu luncheon meat canning production line

Leadworld has planned and designed highly automated and intelligent canned lunch meat production lines for many well-known food factories in china and abroad, whether it is the upgrading of old production lines or the layout of new production lines, Leadworld has rich experience.

Shanghai Yantai bird's nest canning production line

Leadworld has planned and designed 4 of the largest fully automatic bird's nest canning production lines (production capacity: 100 bottles per minute) for the internationally renowned bird's nest brand "Yantai" Industrial Development (Group) Co., Ltd., including glass bottles and "small golden bowl" production lines, from empty bottles depalletizing, cleaning, filling to packaging, achieving a high degree of automation and intelligence, greatly improving production efficiency, facilitating production management, saving labor and other economic costs.

Zhejiang Gengshengtang bamboo shoots/winter vegetable canned, bottle, bag packaging production line

Leadworld designed can, glass bottle and bag packaging production lines for Zhejiang Gengshengtang Ecological Agriculture Co., Ltd., covering the whole process of pretreatment and processing of raw materials, filling and sealing, sterilization, packaging and palletizing, helping customers achieve highly automated and intelligent production layout.

Jiangsu Yuguan modern agricultural bisporus mushroom production line

Leadworld provides upgrades for the production line of Yucan bisporus: the manual push can loading and unloading cages used in the original production line are all replaced with magnetic loading and unloading cages, empty can depalletizers, and filled can palletizers, which effectively solve the problems of flat cans, damaged cans, and broken cans.

Henan Mi Xue Bing Cheng jam production line

Leadworld has made a whole line planning for the jam production line, from empty can depalletizing, empty can cleaning, jam filling, canning sealing, solid can cleaning, automatic loading and unloading of cages, sterilization, automatic packing, robot palletizing, winding, to achieve highly automated production, greatly improving production capacity and efficiency.

Qingdao Kangda pet canning production line >>>

The production line is a pet canning production line planned by our company for well-known domestic enterprises, the contents of the cans are slurry reinforcement shape, solids include shredded chicken, salmon pieces, shrimp, chicken leg bones, etc.

Depalletizing from empty cans - can washing - filling - soup adding - checkweighing - sealing - cleaning - loading and unloading system - sterilization system - air drying - filled can palletizing - post-packaging (solid can depalletizing - top pressing-carton erecting-packing-checkweighing - sealing of boxes) are all completed by Leadworld planning and design.

Suizhou Pinyuan Mushroom Sauce & Chili Sauce Production Line

LWT has made a whole line planning for the mushroom sauce & chili sauce production line, providing equipment such as vibration cloth, bubbling cleaning, can washing, filling, sealing, can cleaning, drying, labeling, etc., to achieve highly automated production and greatly improve production capacity and efficiency.

Some Clients

The background is a deep blue space-themed scene. At the bottom, a city skyline with various skyscrapers is depicted in a glowing blue, wireframe style. Above the city, a large, translucent blue dome is formed by a grid of lines. A line graph with several data points is overlaid on the dome. The text "LWT is dedicated to serving you!" is centered in a bold, white, sans-serif font. The overall aesthetic is high-tech and digital.

LWT is dedicated to serving you!
